

The WestPlan MPO has been directed by the Michigan Department of Transportation (MDOT) and the Federal Highway Administration (FHWA) to compile a list of prioritized projects to be funded with additional federal money that may be available as a result of new federal legislation. The bill has not been passed and is still awaiting Senate approval.

Part of the federal MPO Planning process includes public participation, which includes allowing the public to view all lists of federally funded projects and to comment on these projects before they are incorporated into MPO documents. This notice initiates the public comment period for the following Fiscal Year 2010 Jobs For Main Street Project list. This list will be available on the WMSRDC Website for 30 days. Once this comment period has expired, the list will be presented to WestPlan Policy Committee for review and approval.
